Pennsylvania	4.3	1.8	2.2	0.3	1.3	10.5		2.4

- 1. Total Land includes the five categories listed plus land for which no data were available.
- 2. This table is based on the area of map polygons within 3.3 feet (1 meter) above the tides. Although the area of the polygons can be tabulated very precisely, the 3.3-ft (1m) elevation estimate is subject to the accuracy limits of the underlying elevation data. The elevation error column displays the accuracy limits (root mean square error) of the data used to identify the 1-m elevation contour.
- 3. Includes mudflats.
